

I am the recipient of unwanted faxes. I don't know how to stop them. I call the number on the fax to be removed from their list but it seems like each fax has a different reply number. The one I received today is from Morgate Services 800 772-7710. No address. The remove number they list is 800 653-9894. But tomorrow there will be several more. I can't afford the ink for my machine.
